Architectural Assistants, Qualified Architects and Interior Architects

- Award-winning international practice
- Employee-owned
- Large multi-use projects
- New and exciting opportunities

Make is an award-winning international architectural practice with a reputation for challenging convention and pursuing design excellence.

The Sydney studio is growing as we win new projects, and we are looking for Interior Designers, Architectural Assistants and Qualified Architects.

We're excited to contribute to the changing landscape of Sydney as the city contends with housing challenges and continued redevelopment of historic areas. Our work in Australia is part of an ever-growing international portfolio that emphasises sustainability and placemaking and includes projects for a diverse array of world-class brands.

The team here has grown rapidly since arrived, and we're excited to welcome more. Our employee-owned structure provides a collaborative ethos and democratic working environment where everyone's opinion counts and every Maker is personally invested in the success of the company.

We're looking for people with strong technical skills, including Revit, and solid experience of taking projects from concept to completion. We are also looking for people who are strong on Interior Design. Ideally you'll also have experience working on multi-use projects with heritage and transport elements. We want people with problem-solving, can-do attitudes who are willing to get stuck in and help Make Sydney deliver world-class architecture.

If you're excited about who we are and what we do, please get in touch! You can send your CV, portfolio and covering email to sydneyrecruitment@makearchitects.com.
